Rear Parents/carers,

Would you like to improve your cooking skills and have a lovely time with your children while they also get taught how to cook?

We have space for 6 families to work with Mansfield District Council health and wellbeing team to learn how to cook from scratch for less than a fiver for each family meal.

It will take place in the mobile classroom on our site and will be every Tuesday am, starting on the 14th January. Parents will start the prep at 9.00am and then your children will join you at 10.00am to finish off, you will take home what you make and this is totally free. You do not to provide anything to participate. Allergies can also be catered for.

Because we only have space for 6 families you will need to commit to all 5 sessions unless your children are ill. If you have a few children with us and you would rather only do it with the older ones that is also fine.

Please send the slip back to me by Friday and I will let you know if you have been selected if we have too many applications.

Thank you,
Mrs Yardley

I would like to join in with the cooking class. My name is

_____. My children I would like to cook

with are _____.

We have no allergies

☐

We have these allergies _____.
