RESOURCE PRODUCED
IN PARTNERSHIP BETWEEN

The School Games Organiser network and Active Notts are working together to create and publish a weekly programme of activities to help support schools to assist parents and carers to maintain an active routine for children and young people whilst at home or when socially distancing in essential care.

The weekly activities will be sport themed and include golf, football, tennis, orienteering, athletics, cricket, gymnastics, boccia, netball and badminton. All activities have been developed so everyone can have a go using equipment found in the home and in whatever space you have available.

Children and young people should engage in moderate-to-vigorous intensity physical activity for an average of at least 60 minutes per day across the week. This weekly resource will give simple ideas on how to be physically active with a different sport theme for 30 minutes each day. For ideas on how to achieve the remaining 30 minutes please visit Active Notts [website](#) or contact your local School Games Organiser by clicking on their logo within this resource.

This pack contains a schedule of suggested activity challenges for the week and daily activity cards. You do not have to do them in the suggested order or in fact do them all, if you really enjoy one day there is nothing stopping you doing that activity every day! However, if you do the personal challenge, we would encourage you to have a go at it each day and aim for improvement. There will be a virtual competition each Friday, details of how to enter are shown on the schedule page and on the Friday activity card. There will be prizes for schools with the highest percentage of entries based on pupils on roll, certificates for all entrants and a prize draw after the last week for those who have entered 100% of the virtual competitions. Where permission has been granted, we may showcase entries, on the Active Notts website, in our newsletter, on the Active Notts Facebook, @Active Notts Twitter account and with local media outlets. Please make sure that all activities are carried out in a safe manner.

We are very interested to receive your feedback so we can continue to do what works well but also make amendments to future weeks to ensure the resource is relevant and useful. Please send any feedback to nottsschoolgames@activenotts.org.uk

20 x 5m Shuttle Run

Set up a distance of 5m marked at either end using cones or an alternative mark (pegs, tape, tins etc...) to create the running lane.

Each participant runs the 5m distance a total of 20 times to complete 100m. A handheld stopwatch or smart phone stopwatch can be used to record the time

PLEASE USE A FLAT / DRY SURFACE

Standing Long Jump

The participant should start from a standing position in line with "0" on the tape measure and jump as far as possible landing on two feet.

The participant must start on two feet and land on two feet. You are not required to hold the landing but if you fall back or step back the jump should not be recorded – have another go!

Vertical Jump

The participant stands with their back and heels touching the wall. Both arms should be stretched upwards and legs straight. The printed scale provided should be stuck on the wall and a mark made where the top of the fingers reach when fully stretched.

Turn side on, move 20cm away from the wall, jump and touch the scale at the highest point. Record the number reached and calculate the difference between stretched height and jumped height.

If you do not have access to a printer you can use a long ruler or tape measure to measure the difference between the finger tips when stretched up and the jump height achieved.

Speed Bounce

The participant should cross the wedge (or substitute for wedge) as many times as possible within 20 seconds.

Speed Bounce is a two-footed jump – feet should leave the mat or floor simultaneously and land on the mat or floor simultaneously.

All you need is a stopwatch or phone and a soft item – kitchen roll or rolled up towels are examples of what can be used as an alternative wedge.

Target Throw

The participant stands behind a line and throws three items into the target placed at 3m. The target is then moved to 5m and the process is repeated.

4 points if the item lands in the target. 2 points if the item bounces out of the target or if the item touches the floor before the target

Tennis Balls, Rolled up socks or small soft toys can be used. A washing basket, paper bin, cardboard box or dog basket are example target items.
